

Riccardo Fusiello

About me

Hi, I'm Riccardo Fusiello, an ex-student of ITIS Sen. Onofrio Jannuzzi in Andria. I completed the five years of ITIS in 2021 with great grades, particularly in the main subjects.

I completed my bachelor's degree in Computer Science at the University of Trento and am currently studying Artificial Intelligence at the University of Bari. My inspiration is to work in a leading company in Computer Science or a company that heavily invests in Computer Science and Innovation.
